

# MAGDALENA ISLAND SAILING

Penguins in Patagonia, an unforgettable experience. The ecosystem that forms those two islands makes obligatory the visit of both islands. Marta Island is home to more than 1000 sea lions, cormorants, skuas, southern seagulls and Antarctic doves. Magdalena Island allows interaction with one of the biggest Magallanes Penguins colony exceeding 150.000 birds. During the navigation it is possible to spot Southern dolphins and skunk dolphins. For wildlife protection reasons, we will get off Magdalena Island but only circumnavigating Marta Island.
