

HORSERIDING IN CAJON DEL MAIPO

Discover this hidden place of the Andes Mountain range, in a special way, with a horsebackride with the respective “Arrieros” or local cowboys. You will feel the connection with the Mountains and experience this beautiful place full of nature like in ancient times our ancestors have done it, all these while the stories from our guides will be told. Since the place where the ride starts you can enjoy the flora and fauna of the area, which has the peculiarity that is made for the majority of endemic species and for having the characteristic of the sclerophyllus forest. On this silent place you are going to be delighted

by the sound of the birds, part of the fauna that you can meet in this ecosystem located in the Andes mountain range. We are going to take a break where we will enjoy a privileged view of the city with the company of the horses and a majestic view from the Andes, for later coming back to the point of start riding our horses. The mixture of wonders of the area of Santiago with the connection that is going to be created with the horse is ideal for people who love animals and the outdoor life. An excellent way for connecting the human being with the magic of the animal.
