

INTERACTIVO MIRADOR MUSEUM

AM/PM

The Interactivo Mirador Museum (MIM) occupies 11 hectares of green areas, terraces and multiple use areas that defines an imagination park. It has a central building of 7.000m², where its structure combines with harmony wood, crystal, copper and cement. It is an educative, interactive and ludic space that invites us to live special and personal experience with science, art and technology, based on an entertaining education and above all, the learning-by-doing. It has around 300 interactive units divided in 14 rooms and a wide range of complementary activities

about science, art and technology. There is no defined path through the different rooms, you can discover it like a labyrinth until it appears as a large-scale whole that you convert into a surprising and exciting experience.
