

PANORAMIC PORTILLO

Portillo ski resort is located in the northwest of Santiago, an ideal place to enjoy winter holidays in the middle of the snow blanket that covers the Andes Cordillera. We will leave Santiago early in the morning and we will go to the Andes Cordillera until we reach Portillo, located 2860masl and 164km north from Santiago. On our way, we could enjoy the charming views on the glaciers and the highest peaks of the valley. Once arrived at the ski resort, we will have time to practice some winter sports or have lunch in one of the restaurants.
