

# OSORNO VOLCANO AND PETROHUÉ WATERFALLS

A glacier-origin lake and an active volcano are places that you cannot miss. We will start our trip bordering Llanquihue Lake through the southern shore. We will have the opportunity to learn more about the German colonization and the development of the agriculture. We will visit Fundo Playa Venado where we will know more about the field and livestock activity. Once arrived in Vicente Pérez Rosales National Park, we will visit the internationally renowned Río Petrohué waterfalls that delight the tourists with its turquoise color. Then, we will arrive at the origin of this river, the Todos los Santos Lake and we will visit its

volcanic-origin beaches. We will continue to the foothills of Osorno volcano and then we will stop at Ensenada where we will have time for lunch and then continue to the ski resort. During the trip, we will appreciate the Río Petrohué valley and Llanquihue Lake.
