

# VIÑAS EMILIANA & CASAS DEL BOSQUE

We will start the tour in Emiliana vineyard going through the garden where you will find native animals, active characters of the biodiversity that sustain our countryside. Then, we will make a visit to the vineyard where we will be told about the different types of soils, the varieties planted and the climatic characteristics of the valley. The tour finalizes in the underground cavern where are stored the prepared biodynamic, in charge of wine grape nutrition and protection. Wine tasting.

The visit will continue to Casas Del Bosque vineyards, a boutique vineyard where tourists could go through the cellar, visit the barrel room and taste some wine.

\* Free time for lunch (on account of the passenger).
