- ✓ 3 nights accommodation in San Pedro de Atacama (breakfast included)

Does not include:

- ✗ Flight tickets
- ✗ Meals and beverages not specified in the itinerary
- ✗ Tips

Flight Recommendations:

- Santiago (SCL) / Calama (CJC) → Arrival to Calama before 11:00 hrs.
- Calama (CJC) / Santiago (SCL) → Living Calama from 17:00 hrs.

Day 1 / Calama Airport – San Pedro de Atacama – HD Moon Valley

Arrival in Calama. Reception at Calama Airport and transfer to the selected hotel in San Pedro de Atacama.

A couple of kilometers outside of San Pedro de Atacama, between the jagged rocks and unusual shapes of the Cordillera de la Sal (Salt Mountains), we find the Valle de la Luna (Moon Valley), a geological wonder of the Los Flamencos National Reserve. During the tour, you can take in the extraordinary shapes of the landscape, which will make you feel as if you were walking on the moon. During the afternoon, you can enjoy the unbeatable views of the Andes and its volcanoes. As dusk falls you will be overwhelmed by the red and golden colors of the desert sky. All this results in a simply unforgettable tour. Return to the selected hotel (accommodation included).

Day 02 / San Pedro de Atacama

Free day for optional activities. Night in the selected hotel.

Day 3 / San Pedro de Atacama – FD Altiplanic lagoons and the Atacama salt flats

The journey starts with a visit to the Toconao village, constructed with volcanic stones. This place stands out for its patrimonial architecture, for the San Lucas church and its bell tower, declared national monument. The main source of employment in this village is agriculture and craftwork, the most important artistic creations here are those made with volcanic stones. We continue the journey to Chaxa Lagoon, a landscape of spectacular beauty, divided in several water mirrors, where many flamencos and other birds like Paringas live. Later, we will continue to the High Plateau, to go over the lagoons Miscanti and Miñiques, at more than 4,200 m.a.s.l. This place is a surprising destination, habitat of a wide variety of birds and surrounded by impressive volcanoes originated by the elevation of the Andes. Finally, before the returning trip, we will visit the Jere valley, while the landscape gives us stunning views of the Licancabur and Lascar volcanoes. Here you will be able to see all the flora and fauna of the place that has been the habitat of the first Atacama people, where they could develop in harmony with the agriculture and their astrology. Return to the Hotel (accommodation included).

Day 4 / San Pedro de Atacama – FD Geysers del Tatio and Machuca – Out

Our journey to the Altiplano starts in the early hours, so we can watch the sun rise in one of the most important geothermic fields in the world: the Tatio Geysers. There are over 70 geysers with pools of boiling water spurting vapor. It is best to see them first thing in the morning, so you can truly appreciate the beautiful contrast of colors between the intensely blue sky and the pristine vapor from the geysers. We will then enjoy a deserved breakfast in this amazing setting, in the shadows of the Andes. This will allow us to warm up, as the temperatures in the zone can range from -2° C to 24.5° C. On our way back to San Pedro de Atacama, we will travel through some beautiful landscapes, seeing the valleys, flora and fauna and maybe spot some of the local vicuñas and vicachas – a real highlight. We will then stop off in the village of Machuca, a truly atacameño village of just 20 houses built from clay, straw and cactus wood. The inhabitants of Machuca all dedicate themselves to its tourism and will offer hand crafted Andean souvenirs, as well as typical

food from the region such as llama meat, sopaipillas (a traditional bread made from squash) and empanadas. While there, we will also visit the beautiful San Santiago Church, named after the patron saint of the village, as well as visiting the wetlands where we can see flamingos, ducks and other birds. At the agreed time, transfer to Calama Airport to board your flight.

END OF OUR SERVICES.
